Web languages such as HTML, CSS, PHP and JavaScript

Linux

Swift, Xcode and Apple Developer Portals

Git

AWS and it's services

PROJECTS

Clixigo Labs LLC is a company I founded in 2020 to develop apps for iOS, iPadOS, and macOS.

The Hackintosh community is something I participate in regularly, writing guides, working on Kexts, and helping others with their machines.

My personal website was written from scratch using HTML, CSS, and JavaScript.
